

## More Fun with Flowers - Term 3

Requirements for first night for a pave design:

- An assortment of flowers and greenery with dense compact heads that can be cut short and used in mass as per pictures. Examples can be succulents, berries, hydrangeas, camelia, spray chrysanthemums, roses, viburnum, pittosporum, leaves, gum nuts, pine cones, fruit and vege cut up, tea lights, etc. These designs can take quite a lot of plant material.
- A shallow dish, any shape. A quiche dish works well.
- Oasis for the dish (can be purchased from me for \$2.50 per block).
- Cutters
